As the PCs begin their trek, they find themselves heading in the direction of Wyverglyn. A survival check by a PC with the Tracking skill (occasional humanoid, hoofed mammal, and vulture) has moved north, the same way the PCs are heading. A little has come from that direction heading south. The party crosses the bridge in the encounter before the check reveals the reverse to be true.

2 things:

1) I wanted to know how this thing worked.

2) I want more friends that play racing games.. The game in it's current form is not good.

It has so many downsides : no music adjustments, bad aim controls, bugged face animations, touch polygons to press E to activate stuff, Immortal mutants and generic story elements.

It's kinda like doing a lot of things bad (shoot, sneak, beat'em, "puzzle", story) instead of a single thing good.. A real page turner.

Well worth the \$11.99 for seasons 2-5.

Can't wait for Episode 4.. Dead Exit i played now 2.8hrs on it i and i enjoy it. for a card game that really goes quick sure for granted i only played single player and trying to get my friends to play this game and to go on Multiplayer. I'm looking forward for much more down the road and see how things pick up what i think it will.

Time is everything in Dead exit, finding a good plan how to do things and taking the win to make it out alive.

so if you want a zombie post-apocalyptic survival card game this is one to pick up. Hunter:

Change the sensitivity and there you go! You can play this forever :D

. so much crash I have :( mission take so long to complete and in the last...CRASH ! :( many many time. I have mixed opinions about this one. While I'm a big enthusiast of games with a pirate theme, this one somehow disappointed me throughout the way. Well, don't get me wrong, the game is enjoyable and everything, to a certain extent, of course...

That said, where should I begin? Ok, I won't say anything about the graphics, especially because I've played Pixel Piracy before, and at least for me, that's definitely not something that can spoil a good game. The music gets old quickly, and the sound effects are ok. As for the gameplay itself, I thought somehow weird to play with a mouse + keyboard combo (didn't really try a gamepad though). Ah well, anyway, you get used to it. As for the story... Yeah, in my opinion, that's where the game drops the ball. There's not really something to keep you motivated to play, as it's basically just a whole lot of grinding and repetitive quests. After you unlock all the achievements, eventually you get to ask yourself: "What about now?", and that's when you uninstall the game.

So, overall, if you're looking for a game with a fair price, in order to kill some time, unlock all the possible achievements without much hindrance etc... I'd recommend it to you. Otherwise... Well, don't expect much from it. I'd say that it's like a one night stand: Enjoy it while it lasts. TRAAASSHHHH. BEST GAME EVER <3

Formidable music, astounding and refreshing gameplay for a Shoot'em up. Amazing story.

You guys have to make much more games! :D. Recommended.

Good point&click adventure game.

I can be short but good enough.

Good graphics, story... Interesting puzzles. Original.
